

SELF-AWARENESS AND SELF- EFFICACY

ABOUT

An entrepreneurial mindset is about believing in oneself and keep improving. Self-awareness is about analysing one's mistakes and failures and knowing one's strength. To reflect on one's needs allows an entrepreneurial person to become the person they want to be.

DESCRIPTORS

- ◆ Reflect on your needs, aspirations and wants in the short, medium and long term
- ◆ Identify and assess your individual and group strengths and weaknesses
- ◆ Believe in your ability to influence the course of events, despite uncertainty, setbacks and temporary failures

ASSESSMENT FOR LEARNING METHOD

SELF-AWARENESS AND SELF-EFFICACY

Students are given the opportunity to assess their skills and to identify their strength and weaknesses, and goals. They then reflect on their progress together with peers and their teachers. An assessment for learning activity could be to give students a quiz and description of skills at the beginning of the school year or project. The students are then asked to keep track of their achievements and tasks completed to develop certain skills.
